Hi, Members. Did you know you can use your telephone to send messages? Look at the dial for the number "2." A "2" with a dot to the left represents the letter "A." A "2" with a dot above represents the letter "B." A "2" with a dot to the right represents the letter "C." The star can be "Q," and the number sign "#" can be a "Z." You can even use the "0" for a period. Now try to solve this message.
